WORK EXPERIENCE

Software Developer

PixelFree Studio UG

03/2025 - 01/2026

Saarbrücken, Saarland, Germany

- Built production web applications using React and GraphQL APIs
- Developed a configurable accessibility widget using HTML, CSS, and JavaScript, and automated client-specific generation, reducing setup time from hours to seconds
- Implemented backend features in Python and Flask
- Collaborated with stakeholders to deliver production features, improve reliability, and support releases

Research Assistant - Software Development

Fraunhofer EMI

10/2023 - 11/2024

Efringen-Kirchen, Baden-Württemberg, Germany

- Developed new frontend features using Vue.js, Three.js, and TypeScript
- Built an authentication library in ASP.NET Core for secure user access
- Worked on token-based authentication, SignalR integration, and document-based user data storage
- Developed the LSQRA (Laser Safety Quantitative Risk Analysis) tool in C++ for a major defense-sector client
- Designed desktop UI components with WinForms and implemented 3D visualizations using OpenSceneGraph

Software Engineer

Amelia AI

12/2020 - 02/2023

Bangalore, India

- Implemented AI-powered solutions using the Amelia platform for clients including JPMorgan Chase & Co., Visionworks, and Resorts World
- Configured the platform for client needs, including conversation flow creation, external system integration, and NLU model training
- Conducted thorough testing of implemented solutions and resolved any identified issues or bugs
- Provided technical support, troubleshooting, and training

Software Engineer Trainee

MountBlue Technologies

07/2020 - 09/2020

Bangalore, India

- Developed Java web applications using Spring MVC, Spring Boot, Spring Data JPA, PostgreSQL, Thymeleaf, HTML, and CSS

EDUCATION

M.Sc. in Information Technology Management

Berlin School of Business and Innovation

03/2023 - 08/2024

Berlin, Germany

- Grade: 1.8

B.E. in Computer Science & Engineering

BNM Institute of Technology

08/2013 - 06/2018

Bangalore, India

SKILLS

PERSONAL PROJECTS

Blog Application

- Built using Spring Boot, Spring MVC, JPA, Thymeleaf, and PostgreSQL
- Implemented CRUD operations for posts and comments with server-side form handling and database persistence
- Added search by title and filtering by author to improve navigation and content discovery
